radix

The explanation

This helps retain moisture, promotes deeper roots, and prevent weeds. It also improves heat tolerance, reduces soil erosion, and keeps grass lush and strong.

How often do I water my lawn?

2 to 3
per week
when less than 90°

How long do I water my lawn?

15 minutes

using
stationary
sprinklers

Services we provide

to create beautiful lawns

A close-up photograph of a garden bed filled with various flowers, including yellow Black-eyed Susans and purple daisies. The background is slightly blurred, showing more greenery and a wooden fence. The text 'Landscape beds' is overlaid in a large, white, sans-serif font.

Landscape beds

We specialize in eliminating weeds from flower beds, rock beds, and other landscaping areas, helping you maintain a pristine, aesthetic, and beautiful lawn.
